## 1. PURE

## ELEGANCE

The timeless beauty of this kitchen will outlast trends, thanks to its Shaker cabinets and neutral colour palette. Designers Leah and Fliss Pitman of Bone Made describe it as a blend of classic and contemporary design. "Our concept for the home was to ensure we paid homage to the existing and beautiful Federation bones of the property," Leah explains.

"We opted for sophisticated and elegant details such as profiled cabinetry, a classic-style integrated rangehood, marble engineered stone for the bench tops and splashback, and bold and sophisticated pendants over the island bench, which really elevate the space and emphasise the beautiful high ceilings in the kitchen area."
